
waiting for an opportunity to pounce on him and his companions. It was believed, however, that the robbery would be staged at Harvey.

This and the fact that Cleaver was known as a friend of bombers and a confidant of gunmen, impelled the police to break without ceremony into his home. He was out, but his wife was there. In a rapid search the police found \$17,125 of the train loot and \$400 of the stolen Federal bonds. While the search was going on Cleaver, who is known as Lemmy Charley and is a friend of Joe Sallis, the south side beer chieftain, entered and was seized.

During the search Capt. William Schoemaker of the detective bureau touched a bottle containing a yellow liquid. "Don't drop that bottle," Cleaver shouted in terror. "You'll blow us all up. That is dynamite soup."

Three men and four women who entered the house while the police were there, ostensibly to purchase beer, were arrested. One of them is Dan Loomis, alias Corrigan, said to have a record as a bomber. Then, equipped with clews gathered from notebooks and from Cleaver and his wife, the raid proceeded.

Hunt Virgil Litzinger.

Squad visited the home of Virgil Litzinger, 3724 West Pershing road. He was not at home, but his brother Fred and his wife, Lillian, were questioned. Virgil, the police recalled had been sought for more than a year in connection with a murder. He is alleged to have shot and killed Clarence Glynn in a saloon at 2801 West 88th street. Fred Litzinger, however, was convinced he was in no way involved.

Next the investigators went on to the Eddy street home of the Meccias. Frank and Michael, the brothers, are workmen employed in a Melrose Park quarry, and the police believe they are the men who bolted dynamite to make the easily handled explosive for bombers and safe crackers. Frank, at least, is said to have been identified by witnesses as one of the train bandits.

A number of others are in custody, but their connections with the case, if any, have not been clearly outlined.

Attorney Explains All.

One report received by the police was that Attorney Charles S. Wharton, 8236 Pleasant avenue, had been called to look on his back porch and that if he did so he would find a lot of money.

Capt. Schoemaker and Postal Inspector Aldrich went to ask him about this. Mr. Wharton readily explained. "Saturday night I had a telephone call," he said. "Somebody said he wanted to see me, but he wouldn't tell his name or business and I wouldn't talk. There was nothing said about any money."

He added that a woman had left a pot of paint on his doorstep Saturday afternoon, and supposed that was how the suspicion of the captain and the inspector had been aroused.

WRIGHT TELLS WHY HE GIVES HIS FIRST AIRPLANE TO LONDON

Washington, D. C., Feb. 26.—(AP)—Orville Wright, pioneer aviator, explains in an article written for publication in the U. S. Air Service magazine that he is sending the original 1903 Wright airplane to the British National museum rather than keep it in this country "because of the hostile and unfair attitude shown towards us by the officials of the Smithsonian institution."

He laid to the institute the beginning of "a subtle campaign" to take from him and his brother, Wilbur, credit for certain scientific calculations and give the credit to the late Prof. Samuel P. Langley, one-time secretary of the institution.

Expressing regret that he felt his course necessary, Wright declared he did so with the belief that the work of himself and his brother "will be impartially judged and will receive whatever credit it is entitled to."

British Arrest 450 in Samoa Liberty Movement

APIA, Samoa, Feb. 26.—(U.P.)—Armed forces from two New Zealand destroyers have helped local authorities to arrest 450 illegal police belonging to the League of Samoans. After being held for several hours they were released. Those arrested were endeavoring, as members of the league, to frustrate the British administration in the mandated territory and attain self-government by establishing their own police force.

SENATORS PUMP COAL EMPLOYER FOR LABOR VIEWS

Draw Out Ethical Views on Old, Old Question.

BY PHILIP KINSLEY.

[Chicago Tribune Press Service.]

Pittsburgh, Pa., Feb. 26.—[Special.]—On this quiet Sunday afternoon, in the comfort of their hotel, quite far above the city smoke, the four United States senators investigating the coal strike situation, now entering its second year, held a remarkably frank debate with Horace F. Baker, lawyer-president of one of the greatest producers, the Pittsburgh Terminal Coal corporation.

Looking far into the future, they tried to find where this bitter, apparently hopeless conflict is leading the country in social and economic changes and possibilities.

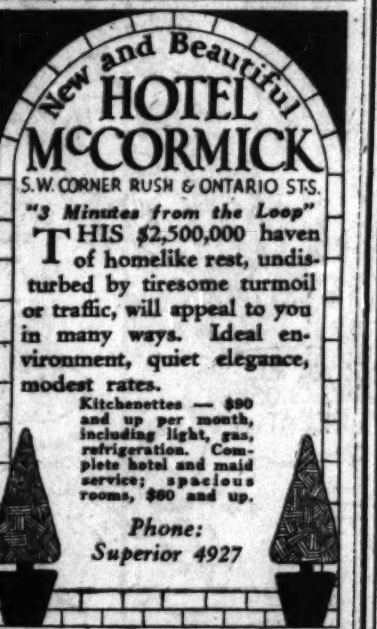

The debate disclosed not only the attitude of the big operators, but shows the temper in which the senators will return to Washington tomorrow night to prepare for formal hearings and recommendations to the full interstate commerce commission.

"Fight Fire with Fire."

Charges of brutality made by strikers against company police and agents seem about offset by charges made by operators against the strikers and sympathizers—stories of brutal beatings, shooting, destruction of property.

"This is no pink tea," said Mr. Baker. "We had to fight fire with fire."

When Mr. Baker declared for his

company, the second largest producer, the policy already announced by the Pittsburgh Coal company—that the mines in the future would be run on an open shop basis and there would be no new contract with the United Mine Workers of America—Senator Gooding [Rep., Idaho], chairman, said:

Warms of I. W. W. Specter.

"Either one of two things will happen: You will have the United Mine Workers or the I. W. W. They are in your camps now. You are sitting and abetting, in my opinion, the most dangerous organization in the world—one that is out to destroy orderly government. They are doing all they can to assist you in destroying the union."

"I don't think so," said the lawyer-president of the coal corporation quietly. "I do not think that in western Pennsylvania the I. W. W. will be able to control industry."

Senator Wheeler [Dem., Mont.] took up the debate.

"Don't you think," he asked, "that labor today must have collective bargaining?"

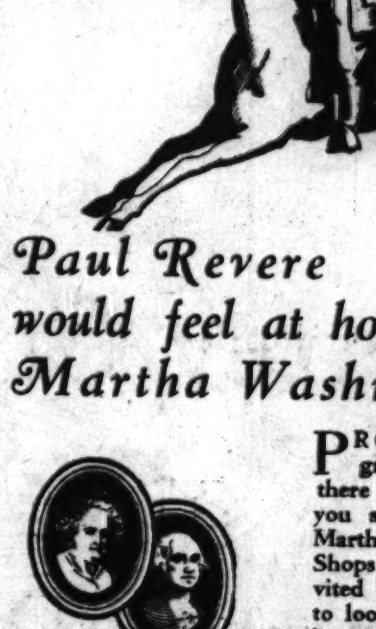

"I do not feel competent to say," I would say that is true as to the past, but times have changed," was the reply.

"Don't you think every advance in living conditions has been made because of efforts of organized labor?"

"I do think labor unions have been a great advantage to their membership," Mr. Baker had mentioned that he was interested in social work in Pittsburgh and Senator Gooding asked him:

"As a social worker, don't you think organized labor has made a splendid fight against Russianizing this government?"

"I give all due credit to labor

was the reply: "but I think times have changed."

The Jacksonville Agreement.

The committee congratulated Mr. Baker on one thing—his company carried out the Jacksonville agreement until it ran out. Pittsburgh Coal company did not do so. Mr. Baker was asked if he believed that a legal contract.

"It is a question of the anti-trust laws," he said.

Mr. Baker undertook no defense of the Pittsburgh Coal company.

"Our troubles are fundamental," he said. "They involved labor cost, readjustment, and freight rates. We cannot agree to fix prices. If congress changes the anti-trust laws and allows us to make a sales agreement, it might be different."

Mr. Baker said the coal produced by his company was sold by a separate concern, the North America Coal corporation. He did not give the commission price, but said he would do so at Washington.

Under the union scale he said the labor cost was \$1.45 a ton getting coal in cars. This was about 75 per cent of the cost of production.

Differ on Living Conditions.

Mr. Baker and his vice president, G. F. Oiler, defended the character of the coal and iron police and the bunkhouses where Negro miners are housed, nine in a shack. Mr. Baker said the men preferred to live there. The committee left this evening for the mining towns of Indiana and will work there tomorrow.

OIL INDUSTRY IN CRITICAL STATE, MEXICO ADMITS

[Overnight, 1928; By the New York Times.]

MEXICO CITY, Feb. 26.—A statement issued by the ministry of industry and commerce makes no secret of the critical condition which prevails in the Mexican petroleum industry.

"Operations beginning the year show greater restriction is accentuating the depression from which, for some time, our industries in general have been suffering," the statement says. "Several of the most important companies operating in Mexico have limited their activities to the mere work of conservation, others have largely reduced their staffs, while others, without adopting such extreme measures, are showing the smallest activity, and a few, such as the Corona and Pemex, are working normally."

"The Pemex activity results from a rich discovery of oil in the state of Vera Cruz."

"Large numbers of men have been dismissed in the oil region in north Mexico. This situation as well as the general oil conditions in Mexico are not due to any impoverishment of the potential capacity of the Mexican subsoil as regards petroleum. The oil legislation has nothing to do with the development of the industry."

SECRET SESSION HELD TO SPEED COUNTY BUDGET

(Picture on back page.)

The county board, sitting as the finance committee, held an executive session yesterday to speed completion of the 1928 budget, as the legal requirement that it be adopted before March 1 may be met. Another session is to be held today, and it is expected that the budget will be ready for the county controller and the printer tonight. It will then come before the county board at its Wednesday meeting.

Louis Nettleshorst explained that the session was conducted behind closed doors in order to keep out a stream of employees requesting pay increases. These petitions would have slowed up the work of the committee, he said. However, newspaper reporters as well as employees were barred from the meeting.

Lowden-Deneen Move Behind President

BY PARKS BROWN
(Picture on back page.)

Mayor Thompson's recent statement that he will have the Thompson-Chapin organization in nomination for national convention was regarded as checkmated yesterday by the opposition following a conference at the Emerson-Glen hotel just before United States Senator Deneen started back to Chicago. It was announced that Deneen candidates for will be for Coolidge if the Democrats to become a candidate.

"The men we expect to see in City are Lowden men," explained, "but Col. Lowden has been a candidate against Coolidge. It is well known he acceded to his name only after the Frank Thompson's had fixed their mind to run."

Know Coolidge's Attitude

"We can only surmise, but with accuracy, what Lowden would be if Coolidge should the presentation of his name," one leader said, "having we know what it was only that in such a campaign would be for us supported Coolidge during campaign when the Thompson were either silent on issues or were working against the Polletts."

"Having the so-called convention of the mayor's and Lowden's forces instruct the state how they shall vote in the primary gives the voters the opportunity to cast a preference for the presidency which should be delegates. And Lowden, as we have no opposition for the Mayor Thompson says he has more this expression of voters want."

Expect Coolidge's Presence

One of the conferees also indicated some expression from Coolidge objecting to the use of the name for local factional purposes as he understands the situation in Chicago. The mayor did not Chicago yesterday, but is expected to arrive here today.

Supporters of the Emerson-Glen combination were during the day by reports of their ticket coming from all sections of the state. One of the most specific

FOES OF MAYOR ACT TO CHECK COOLIDGE MOVE

Lowden-Deneen Men Also
Behind President.

BY PARKE BROWN.

(Picture on back page.)

Mayor Thompson's recent announcement that he will have the Thompson-Crowe-Galpin organization instruct its members to vote for President Coolidge was regarded as checked by action taken yesterday by the opposition.

Following a conference of leaders including the Emmerson-Glenn state ticket just before United States Senator Deneen started back to Washington, it was announced that the Lowden-Deneen candidates for delegates will vote for Coolidge if the President comes to be a candidate.

"The men we expect to send to Kansas City are Lowden men," it was explained, "but Col. Lowden would not have been a candidate against President Coolidge. It is well known that he would not have gone on the ticket after the President had announced his fixed determination to run.

Know Coolidge's Attitude.

"We can only surmise, but probably with accuracy, what Lowden's attitude would be if Coolidge should sanction the presentation of his name to the convention," one leader said, "but, before we know what it would be, we can only say that in such an event delegates would be for Coolidge. He supported Coolidge during the last campaign when the Thompson-Small group were either silent on national matters or were working secretly for a Pollet.

"Having the so-called county convention of the mayor's and state's attorney's forces instruct their candidates how they shall vote in convention has absolutely no legal effect upon the law. The law doesn't provide for a step. On the other hand, the mayor statute gives the voters an opportunity to cast a preferential vote in the presidency which shall be considered as advisory by the men elected delegates. And Lowden, a favorite, has no opposition for that vote. Mayor Thompson says he intends to have this expression of what the voters want."

Expect Coolidge Protest.

One of the conferees also said he expected some expression from President Coolidge objecting to the use of his name for local factional purposes as he understands the situation. The mayor did not return Chicago yesterday, but is expected to return tomorrow.

Supporters of the Emmerson-Glenn combination were cheered during the day by reports of definite withdrawal of their ticket coming from several of the state.

Of the most specific was that

The Republican organizations in the Seventeenth judicial circuit, a tier of four counties at the north end of the state—Lake, McHenry, Winnebago, and Boone—had lined up solidly, following the announcement that the candidacy of William J. Stratton, state director of conservation, for secretary of state, had been endorsed.

Judge Edwards Withdraws.

One evidence of this lineup was the formal withdrawal of Judge Clair C. Edwards of Waukegan as a Thompson-Crowe candidate for alternate delegate to the national convention.

"I was in California when a petition in my name was filed without being consulted," said Judge Edwards, "and since my return I find the sentiment in this circuit almost unanimously in favor of Lowden and the Emmerson state ticket."

Crowe to Keep Raided

Gaming Houses Closed

Gaming houses raided under the personal supervision of State's Attorney Crowe will remain closed in the future, it was stated yesterday. The announcement followed a descent on the resort of Frankie Pope at 7111 North Clark street, where forty-three men and a quantity of gambling apparatus was seized. "I've instructed my men," the state's attorney said, "to keep such places closed. If attempts are made to start up again it will mean only more raids."

ARMED HOSTS OF BOLSHEVISM PAY HONOR TO LENIN

Red Troops Reviewed at
Tomb of Leader.

BY HENRY WALES.

(Chicago Tribune Press Service.)
MOSCOW, U. S. S. R., Feb. 26.—Amid dancing, crystal sunshine, although the thermometer registered 18 degrees below zero, a gray-green horde of 25,000 troops paraded in Red square this morning to commemorate the tenth anniversary of the creation of the Red army.

Another 25,000 persons jammed the front of the grim Kremlin walls and the big grandstands, while soviet and communist officials reviewed the soldiers from the balcony atop Nicolai Lenin's rough wooden tomb. The spectators joined the troops in cheering the dead leader's memory, as well as Dictator Joseph Stalin, War Minister Clemens Voroshilov and the soviet army, as the blood-red regimental flags passed by at the head of each detachment.

Show Iron Discipline.

Despite the Marxian principles of equality and liberty in communism, iron discipline was revealed in the troops' snappy, alert movements and their clockwork obedience to the crisp orders of the officers.

The swinging infantry in long olive drab cloaks, galloping cavalry on stubby Siberian ponies, rattling field guns and caissons of the superbly maneuvered artillery, conjured up a picture of the gray host which western neighbors profess to fear one day will attempt to sweep over Europe.

The soviet soldiers are lean, clean shaven youths with spiked helmets.

Red Banners and Chariots.

Red banners extolling the victories of the Red army hung from the Kremlin's brick walls, while from the watch towers still waving the double-headed eagles and imperial insignia.

Infantry from all parts of the soviet union marched past, carrying banners that glistened in the sun, after which came the dismounted cavalry, long curved sabres flashing, then the artillery—with Russian field guns.

Then came the cavalry, crimson pennants fluttering from the lance tips, the officers signaling orders with quick upward thrusts of their swords and the carbines bouncing on the backs of the men as they thundered past on the galloping horses.

BOMBED TEACHER TO TELL OF EXPLOSION FROM STAND TODAY

(Picture on back page.)

(Chicago Tribune Press Service.)

Ottawa, Ill., Feb. 26.—(Special.)—Facing bravely what she admits will be an ordeal, Miss Iola Bradford, 32, will testify tomorrow against Hilman Reed, 34, her former fiancé, who is charged with planting a bomb in the schoolhouse stove for the purpose of killing her and her unborn child.

The former youth at first confessed the crime, then repudiated the confession. In her story to the jury tomorrow she will give a description of the tragic morning of December, when she was almost killed and her face disfigured for life by the stove explosion.

She was singing as she went down the road to the schoolhouse. Ten minutes later she was staggering back the same road, her face and breast a mass of blood from the scores of iron pellets from the exploded stove.

Sections of the Red Cross nurses in white veils marched past, then factory workers and members of the militia, wearing leather coats and carrying rifles.

Afterward the trades unions paraded; thousands of men, women and children in all branches of industry, who can be mobilized in time of war. After them came the boy and girl scouts and members of children's preparedness organizations.

CUNEO VACATES FLAT; BOMBING THREATS BLAMED

Lawrence A. Cuneo, secretary and brother-in-law of State's Attorney Crowe, has moved from his apartment at 2907 Pine Grove avenue, in order to relieve the anxiety of other residents of the building, which was bombed recently and which was later threatened with a second blast.

Notice of Mr. Cuneo's departure was contained in a "For Rent" placard posted at the entrance of the building. The notice stated that the apartment for rent was formerly occupied by Mr. Cuneo. One purpose of the notice, it was stated, was to let the bombers know that Mr. Cuneo had gone. The

notice was signed by the owner, Mrs. George Hull Porter, widow of the sanitary district trustee-elect, who died on the day of his inauguration to office.

Residents of the building said they had threatened to move should Mr. Cuneo remain their neighbor. They explained that they had received anonymous messages threatening a second bombing unless the politician left.

Mr. Cuneo is one of four members of the Thompson-Crowe organization who have been targets of bombers within the last month. The others are City Controller Charles C. Fitzmorris, Dr. William H. Reid, and Municipal Judge John A. Sgarbano.

MUSSOLINI AND ENVOY CONFER ON AUSTRIA TODAY

Italians Hope to Avoid Harsh Measures.

(Specials: 1928. By the New York Times.)
ROME, Feb. 26.—Sig. Auriati, Italian minister to Vienna, will confer with Premier Mussolini tomorrow morning on the situation in Austria. Prior to his departure from Vienna, he had an interview with Chancellor Seipel. His departure, which will be able to enlighten Premier Mussolini on the Austrian government's intentions in the sudden incident arising out of Magr. Seipel's speech in the Austrian parliament, which marked the hitherto good relations between the Italian and Austrian nations. The Austrian chancellor spoke on Italy's methods of governing Tyrol, once an Austrian province.

It will be only after the conversation between Sig. Mussolini and Auriati that a decision will be reached as to whether the latter will retain his post at Vienna or if his journey to Rome is to be transformed into a definite recall. The main lines of the speech which Premier Mussolini will deliver in the chamber tomorrow or Tuesday in answer to Chancellor Seipel will be laid down at the same time.

Hope to Avoid Harsh Measures.

Though Italy is still extremely irritated at what it considers absolutely unwarranted foreign interference in its domestic affairs, hope was expressed in official circles today that Sig. Auriati will be able to give an account of the situation in Vienna which will not render extreme measures necessary. It is pointed out that Italy always has been more lenient in its attitude towards Austria, against which there was no hostile feeling after the collapse of the Austro-Hungarian empire.

It is felt, however, that Chancellor Seipel erred gravely by giving his support to anti-Italian agitators whose hitherto were attributed to irresponsible elements, and steps must be taken to render the repetition of such unpleasant episodes impossible.

Italy Backs Hungary.

Meanwhile, in recent developments at the St. Gotthard machine gun affair, Italy is completely on Hungary's side. The protest by the little entente is the league of nations over the sale of scrap iron of the machine guns seized while entering Hungary, is unhesitatingly defined here as a "farce" tending to throw a totally unjustified accusation of militarism on Hungary. Not only is public opinion here against the little entente's action, but government circles also are of the opinion it is time to throw cold water on attempts to keep alive this question which has now dragged on two months, creating unrest, suspicion and hate among the nations of the near Austro-Hungarian empire.

The Giornale d'Italia, which can be depended upon to reflect accurately the editorial attitude of Premier Mussolini, prints an editorial entitled "The Filthy Farce," which says in part:

"The pressure which the governments of the little entente wish to exert on Hungary, asking also the collaboration of the great powers, is both brutal and cowardly," the editorial says. "It is even more manifest that the peace of Europe is threatened by the turbulent policies of strongly armed, greedy nations which, after disarming and rendering impotent their small neighbors, continue to menace them as a danger, succeeding, moreover, in inducing some of the great powers to accept their denunciations as authentic."

ROW OVER TYROL

ROME, Feb. 26.—[A.P.]—The verbal report to Premier Mussolini by the Italian minister to Vienna on the present state of feeling in Austria toward Italy, his interpretation of Chancellor Seipel's speech to the Austrian national council, and other phases of the present delicate Austro-Italian relations, it is hoped here, will show that the situation is not so serious as to warrant definite recall of Minister Auriati. Il Messaggero today says that Italy has grown tired of the continual agitation concerning the 200,000 German speaking Italians in one of the kingdom's ninety-two provinces.

Mussolini for publicly professing his sympathies for the Germans "mis-treated" by the Italian government in south Tyrol, refused to make a statement today on the diplomatic incident precipitated by the Italian minister to Austria being called home. It is learned, however, from a source closely in touch with Magr. Seipel that the chancellor refuses to apologize for the demonstration of speeches, and already has declared he cannot retract one word from the speech against which Italy has taken offense. All sections of the Austrian press are demanding that the government stand firm.

WORLD EXPECTS YEARLY BALKAN WAR, ENVOY SAYS

When spring comes in the Balkans, when the frozen streams thaw and the peasants leave their winter-bound huts for the fields, there is a general release of stored-up energy, and there is, generally, war. Maybe it is only a little war, a little border shooting, but the world has come to look for some sort of expression of the military spirit in the Balkans every springtime.

This was the picture drawn yesterday by Dr. Kosta Todorov, former Bulgarian minister to Jugo-Slavia and Bulgarian delegate to the Paris peace conference, who addressed a meeting of about 300 Bulgarians, Macedonians, Bohemians, Poles, and Jugo-Slavs at the Bohemian-American hall, 1438 West 18th street.

The solution offered by Dr. Todorov is a united Balkans. He is lecturing throughout the United States to stimulate interest in a union between Jugo-Slavia and Bulgaria.

At the meeting yesterday it was decided to form a permanent committee in Chicago for the advancement of Bulgarian-Jugo-Slav union.

EDMUND ALLEN, FORMER JOLIET WARDEN, DEAD

Edmund M. Allen, former warden of Joliet penitentiary, died suddenly yesterday of double pneumonia at the Ravenswood hospital. He became ill less than twelve hours before his death which occurred on his 58th birthday. An appointee of Gov. Dunne, Mr. Allen was absent in Indiana when his wife, Odette, a former comic opera favorite in "The Merry Widow," was found dead in the warden's suite at the prison on June 20, 1915. She had been slain, it was believed, by a product of the prison honor system she had helped her husband to build up. A colored trusty, "Chicken Joe" Campbell, was sentenced to hang for the crime. In 1918 Gov. Lowden commuted his sentence to life imprisonment.

Mr. Allen resigned shortly after his wife's death. Funeral services will be held at 12:15 p. m. today at 2522 North Cicero avenue. Burial will be at Joliet. Mr. Allen is survived by his widow, Ruth Allen, of 1358 Rosedale avenue, and two children.

Staffed Lions Start Boys on a Hunt for Live Ones

After a trip through the Field museum, Harold Payberg, 6933 Indiana avenue, and Carol Middleton, 5335 Calumet avenue, both 13 years old, decided yesterday they would head for the jungle to seek out a few live lions and tigers. They took an Illinois Central railroad hand car at 39th street and rode south. At 43d street, however, a railroad detective hauled them from the tracks and took them to the Hyde Park police station. There they were reprimanded and sent home.

ROD

TELLS HOW NEW BILL MAY WRECK BROADCASTING

Washington, D. C., Feb. 24.—(Special.)—Federal Commissioner O. H. Caldwell struck back at congressional critics of the radio commission today when he made public a letter written to T. F. Burley, manager of station WCAP, at Asbury Park, N. J., warning the latter and the country generally that legislation now pending will "wreck the present broadcasting structure if enacted."

In a letter, which he signed "Yours in exasperation," and which is certain to provoke a storm in both houses, Mr. Caldwell attacked the so-called "equal distribution of radio" proposal approved by the house committee last week and added to the bill passed by the senate to extend the life of the commission for another year.

World Junk Big Stations.

The proposal would require the equal distribution of power wave lengths and licenses among the five radio zones in proportion to population and area. Such a distribution, according to Mr. Caldwell, would force the elimination of scores of important stations throughout the country and compel others to operate on drastically reduced powers.

The amendment, sponsored by Representative Davis (Dem., Tenn.), is in line Mr. Caldwell declared in the letter, with the policy of congress toward radio since the commission was created and left without funds, adequate personnel or equipment to operate.

Would Wreck Broadcasting.

"If the American people want to see our present wonderful broadcasting structure wrecked," Mr. Caldwell wrote, "enactment of this abominable 'redistribution' clause is the surest way for congress to carry out that purpose."

"Indeed," he continued, "the radio listeners have had little so far at the hands of their representatives in Washington."

"After setting up a radio commission in 1927, congress promptly failed to appropriate any funds on which such a commission could operate, employ aids or experts or purchase necessary apparatus. To date, three radio commissioners have received no salaries whatever."

"And now," the letter concludes, "after a year of the commission, and three months of the present session of congress, the radio commission is still without a quorum confirmed by the senate, and so finds itself hampered on every hand—authority, funds, personnel and equipment—in its efforts to proceed with its carefully considered plans to bring good radio to every home in America."

Under the equal distribution clause, the total of 45,000 watts now allocated to the third or southern zone would become the maximum for the other zones, according to Mr. Caldwell, who took New Jersey as an example of what may happen to other communities if the proposal becomes law.

South Has Few Sets.

New Jersey would be entitled to only 1,200 watts. This would mean that all of the New Jersey stations except WJZ and WOB would have to be closed.

Mr. Caldwell declared that the change was proposed to benefit southern rural districts. He contrasted the percentage of farmers in the third zone states who have radio sets—Mississippi, 1 per cent; Louisiana, 1 per cent; Alabama, 2 per cent; North Carolina, 3 per cent; Tennessee, 4 per cent, and South Carolina, 5 per cent—with those in other sections.

"Fifty-two per cent of the farmers in New Jersey and 33 per cent of the farmers in New York have receiving sets. Fifty-three per cent in Nebraska, 46 per cent in Montana, 33 per cent in Kansas and 33 per cent in Colorado have receiving sets."

Nonstop Flight Is Plan of
Commander.

BULLETIN.

Washington, D. C., Feb. 27 (Monday).—The dirigible Los Angeles passed over Nassau, Bahamas, at 1:05 this morning, said a message from the ship to the navy department. At that time the craft, en route from Lakehurst, N. J., to France field, Canal Zone, had been in the air 18 hours and 45 minutes.

The Gulf of Guacanayabo is a little to the west of Guantanamo bay, where the United States has for years maintained a naval station.

The Los Angeles has been averaging close to 40 miles an hour ever since leaving lower New York harbor this morning.

Commander Rosendahl had authority from the navy department on leaving Lakehurst to continue the voyage from Cuba to the Panama Canal Zone immediately after refueling tomorrow from the Patoka, provided weather conditions are propitious and the dirigible is functioning smoothly.

When the huge silver toned airship left her hangar at Lakehurst, N. J., at 1:05 this morning her destination was unannounced, although it was known to officials of the navy department that if conditions were favorable, Commander C. E. Rosendahl would proceed first to Cuba, and probably to Panama.

The ship was next reported circling New York harbor at 8 o'clock. At noon she was 26 miles east of Cape Charles, Va., and at 4 o'clock this afternoon 100 miles a little northeast of Savannah, Ga.

To Tie Up for Fuel. Commander Rosendahl is reporting his position to the navy department every four hours, with other information concerning the voyage. At 8 o'clock tonight the reported position was about 220 miles a little south due east of St. Augustine, Fla. Commander Rosendahl was heading for Nassau in the Bahamas at that hour with the expectation of reaching that point at midnight.

From Nassau the course of the air-

ship will be swung in an arc to the Gulf of Guacanayabo on the southeastern coast of Cuba, where the Los Angeles is due to tie up to the mast of the mooring ship Patoka early tomorrow morning.

JUDGE BETWIXT FIRE AND SEA AS TWINS SQUIRM

Milwaukee, Wis., Feb. 26.—[Special.]—Municipal Judge George Shaughnessy may need the wisdom of a Solomon enhanced by the testimony of handwriting experts to unravel this case. Leon and Lloyd Longley, 38 year old twins, are charged with forging a check for \$43 a year ago. Lloyd was arrested a month ago on complaint of a saloonkeeper that he had cashed a forged check for \$74.

Complications and More of Them. Both men stoutly maintain their innocence, and those who cashed the checks are positive in their identifica-

tion. Therefore, two still more complicated circumstances: The twins are so alike that it is difficult to tell them apart, and their signatures are so similar as to puzzle handwriting experts.

Leon and Lloyd will be brought before Judge Shaughnessy next Friday, when a test will be made by handwriting experts to determine if the signatures of the twins are so similar as to defy separate identification.

Between Fire and Deep Sea. In addition, it will be necessary for the court to determine whether Lloyd wrote and passed the check bearing Leon's name; whether Leon wrote and cashed the check attributed to him; whether the cashiers of the checks can be positive in their identifications; whether both men are innocent and the checks were written by some other person.

Upon John P. Tyrrell, handwriting expert, rests as much responsibility as upon the court. Mr. Tyrrell says it is not unusual for twins to have similar handwriting, but it is seldom that their signatures are identical.

PEDESTRIAN, 70, IS FOUND FROZEN AT SIDE OF ROAD

Before the weather moderated yesterday morning it had claimed the lives of two men in Chicago. The body of Richard Nugent, 70 years old, 1229 East 57th place, was found frozen solidly in the ice of a ditch near 5000 West 58th street, where he was believed to have collapsed after walking dazed and lost for hours.

Mrs. Elsie Webster, a daughter with whom Nugent lived, told the police she had sent him to a store in the neighborhood about noon Saturday. Stanley Rydzewski, 34 years old, was found dead at the rear of 3738 Commercial avenue, the home of his estranged wife, Henrietta, where he had gone apparently to effect a reconciliation. She was not at home and he sat down in a chair at the top of the rear stairs. Mrs. Rydzewski told police she believed the chair had tipped over with him and he had died of exposure and shock.

POPE ASSAILS IMMODESTY IN WOMEN'S DRESS

ROME, Feb. 26.—[AP.]—The champion immodesty of dress of too many modern women, from which results "insult to the eyes of God and cause for temptation or disgust in the eyes of the world," was scored by Pope Pius today in his first tenor utterance.

This denunciation occurred in the course of a ceremony in the consistory.

MRS. LINDBERGH FLIES TO BOSTON FROM DETROIT

Will Receive Medal of Education Association.

Boston, Mass., Feb. 26.—(AP)—Mrs. Evangeline Lodge Lindbergh, mother of Col. Charles A. Lindbergh, arrived at the Boston airport at 3:50 o'clock this afternoon after an airplane flight of approximately seven hours' duration from Selfridge field, Mich. She was a guest of the National Education association, in convention, to receive a gold medal and a certificate of membership in the association.

Mrs. Lindbergh expressed anxiety over the fate of Harry Brooks, pilot of the Ford monoplane which dove from the sea off the coast of Florida yesterday. Brooks piloted the plane and carried Mrs. Lindbergh to Mexico to spend the Christmas holiday with her son.

UNION MAN SLAIN IN MYSTERIOUS LOOP SHOOTING

Robert J. Rutshaw, business agent for the Wholesale Upholsterers' union, and said to be a brother of Arthur J. Rutshaw, former state representative, was shot and fatally wounded last night in a gambling room in the Federal building, 188 West Washington street. Rutshaw was 39 years old and lived with his brother at 5245 Peoria street.

Four men, who fled after taking Rutshaw to the Iroquois Memorial hospital, and D. J. (Daddy) Brennan, believed to be the proprietor of the gambling house, were being sought by the police last night.

Rutshaw died shortly after reaching the hospital without making a statement. Capt. Max Danner and Sgt. James Conlan of the First district police hurried to the Federal building after finding a card in the victim's pocket. There a colored janitor told of hearing shots in room 202. Danner found gambling paraphernalia in the room and discovered bloodstains near the door. In the wall were two fresh bullet holes which had been stuffed with putty.

ROBBED OF \$10 BY CUSTOMER.
Instead of paying for a half dozen oranges selected yesterday at the fruit store at 1212 N. Dearborn, 1212 West Harrison, one of two men produced a revolver and robbed the merchant of \$10.

BLOCK PATH OF BALTIMORE FIRE WITH DYNAMITE

Baltimore, Md., Feb. 26.—(AP)—Dynamiting several structures in the path of a spectacular fire tonight which destroyed the plants and warehouse of the Bowker Chemical company, firemen succeeded after a three hour fight in checking the blaze, which threatened the southeast section of the city. Four buildings, covering three city blocks, were in ruins and six firemen were overcome by smoke as the result of the blaze.

Several fire boats and the greater part of the city fire department battled the blaze. The origin of the fire was not determined.

Charming Factory Destroyed.
Shelbyville, Ind., Feb. 26.—(AP)—The Shelbyville plant of the Fume Canning company of Chicago was destroyed by fire today. Damage was estimated at \$500,000. An overheated stove was believed the cause.

O'BRIEN, IRISH LIBERTY LEADER, DIES IN LONDON

LONDON, Feb. 26.—(AP)—William O'Brien, veteran Irish Nationalist leader, died suddenly here last night. He was more than 75 years of age.

A leader during the Parnell period of Irish history, Mr. O'Brien was nine times prosecuted for political offenses as the result of his fighting faith in the home rule movement. He always was in the vanguard of those who strove for Ireland's liberty and was in constant conflict with the British authorities.

In 1880 he was invited to become editor of the newly founded United Ireland, which was the official organ of the Land league movement started by Charles S. Parnell and Michael Davitt. Soon after came the arrests of Parnell, O'Brien and many others who were imprisoned at Kilmalham.

Salts Still at Liberty
as Police Hold Warrant
Capt. William Schoemaker of the detective bureau still holds a bench warrant for the arrest of Joe Salts, south side beer gangster. Joe has made himself conspicuous by his absence ever since the Illinois Supreme court affirmed a 60 day jail sentence for run totting. The search for Salts will continue until he is lodged behind the Bridewell bars, police asserted yesterday.

"I paid a big price
for that sore throat"

"Voice husky, throat raw, that night I wasn't 50% effective. And next day—well, I had to cancel a week's engagements. Now, I always carry a bottle of Formamint tablets with me. According to my doctor, they release a safe, powerful germicide over the whole throat. And I can take them anywhere, at any time."

Unlike gargles, Formamint enables you to treat sore throat continuously. Get a bottle now. See your physician for examination, too. To treat sore throat, one Formamint tablet every hour; as a preventive, one every two hours. All druggists.

SURE SURVIVOR TELLS HOW SHIP SANK; 23 DEAD

Crash, Curses, Groans as
Boat Disappears.

SOUTHAMPTON, England, Feb. 26.—A graphic description of the sinking of the Italian steamer Alcide in collision with the Soviet training ship Tovarisch, Friday night in the Strait of Dover, was given today by Giovanni Pavoni, engineer and sole survivor of the crew of 21.

"It was very dark Friday night when we were approaching Calais," he said. "About eight o'clock the chief engineer descended to the engine room, and he said, 'We are in terrible danger.'"

"Before I had time to reply there was a terrible crash followed by a sound like the crunching of a thousand timbers. The ship staggered, then shouted, groaned and cursed. The chief engineer cried, 'All hands on deck—quickly—for your lives!'"

"I rushed up, feeling the ship reel under my feet. I saw that the stem of the Tovarisch was wedged in the bow quarter of our ship with her spirit across our deck. There were two tremendous reports, which I believed were boilers exploding.

"The water was soon up to my neck. I managed to grasp a broken chain hanging from the Tovarisch's davit as I felt the deck of our steamer slowly sink beneath us. It was all over in three minutes, and, looking down, I saw churning waters, which became a whirlpool where a moment before my ship had been.

"After about ten minutes a Russian sailor saw me. He lowered a life buoy and I had just strength enough left to struggle into it and be hauled up. I remember the Russians throwing bright lights on the water and of seeing them lower three or four boats."

MANY ARMS OF G. P. U. ARE BANE OF SOVIET FOES

Appeal Futile When These Police Order Death.

BY HENRY WALES.

(Chicago Tribune Press Service.)
MOSCOW, Russia, Feb. 26.—In Russia the chief topic of conversation is the G. P. U., the erstwhile cheka. G. P. U. means roughly "national security organization," and these are the men whose mission is to safeguard the soviet government and communism generally from plots and counter-revolutionary activities of the Russian Whites.

The G. P. U. employs members of the communist party only, with the exception, perhaps, of an occasional stool pigeon. All waiters, railway conductors, hack (or sleigh) drivers, postmen, and janitors are popularly supposed to be G. P. U. men. And nearly all of the girls with badly painted faces, who promenade in the Tretyakovskiy at night, and most of the indolent beauties who sit and smoke cigarettes (no job here), to eavesdrop on all telephone to agents, too.

An Elaborate System.
The G. P. U. is believed to open every letter, to peruse every telegram, to listen in on the wireless (pretty hard trade to urge clemency or a rehearing conversations and to maintain elaborate, detailed dossiers on most every body in the country. As a matter of fact none of my mail has been opened since I have been here; my telegrams have been received and sent without delay, and if any one is listening in on my phone he hasn't interfered with the service, which, after all, is the main thing in Europe.

The G. P. U. doesn't bother foreigners as a general thing. It has not molested any Americans for years, and such foreigners as it does deal with are usually Poles, Roumanians, and nationals of other border states, accused of spying or plotting. Frequently these people were Russians before the new frontiers were traced.

The G. P. U. headquarters is in the Lublanka, in what formerly was the building of a big insurance company. The G. P. U. prison, at the edge of town, is called the Butyrky, a huge red structure. Often prisoners are kept for months in the Lublanka. However, before being exiled to Siberia or transferred to the Butyrky.

Prisoners Are Shet.

No official description of how condemned prisoners are put to death by the G. P. U. has ever been made, but the accepted version is that they are shot. A condemned prisoner is ordered by a guard to leave his cell. As he walks down the ill-lighted corridor, the executioner steps up to him from behind, presses the muzzle of a revolver behind his ear and fires. There is no appeal from the G. P. U. Friends of persons arrested are powerless to intervene for them. No other branch of the government will intrude to urge clemency or a hearing from the G. P. U. The ordinary judicial system has no contact with the G. P. U., nor do the military authorities ever interfere.

How G. P. U. Works.

The following story is told illustrative.

ing the tactics of the organization. A man, formerly a White Russian, was employed in a bank. Occasionally he was called by the G. P. U. to make certain statistical tables for them. One day, the G. P. U. asked him to call that afternoon at the Lublanka. The man telephoned his wife he might be a little late for dinner, as he had some extra work to do for the G. P. U. At 3 o'clock his wife telephoned to ask the G. P. U. if he would be long delayed and if she had better wait dinner for him.

"No, don't wait dinner for him. He has been executed," was the reply.

COMPLAIN OF BATH BAN

The municipal authorities' recent decree forbidding mixed and family bathing in the Russian public baths has worked a serious financial hardship on these institutions and receipts have fallen off heavily.

Action was taken because the civic authorities learned the baths were

being used for immoral purposes and gay mixed groups held wild parties in them. Attendants staggered in with cases of wine and vodka.

Protests have been made, however, on behalf of the poorer people on the ground that the elimination of the family bathing arrangements results in the weekly bath costing considerably more for a man, his wife, and their children when they all have to go in separately and pay separately than under the old regime when they went in together. It costs about 62 cents to take a Russian bath, with the towel and tips included.

Crowd Grooms American Flyers in Bolivian Capital

LA PAZ, Bolivia, Feb. 26.—(U.P.)

The American aviators, Doolittle and McMullen, arrived at 11 a. m. today from La Paz, Peru. They were greeted by the American chargé d'affaires, Bolivian government officials, members of the military aviation school, and an enthusiastic crowd.

The Bloom's Condition Bad After Leg Is Amputated

The Bloom, well known to the night life, former owner of Frisberg's and at the Deauville restaurant on Randolph street, was in a serious condition at the Mercy hospital last night and physicians were doubtful of his recovery from a double amputation of one of his legs. Bloom entered the Mercy hospital on Feb. 2, when it became necessary to amputate a toe to relieve hardening of the arteries. Complications set in and the leg was amputated.

Can YOU Name the Song This Picture Represents?

DON'T miss this opportunity to win a big cash Prize. Thousands of Dollars will be paid for best answers. 617 big cash prizes!

Simply name the songs pictured each day in The Daily Tribune. Naming them should be easy with the clues to help you. The name of each song is printed in the list below. And each evening W-G-N broadcasts the music of the song pictured in the Tribune the next morning. Tune in!

Tear out Picture No. 7 printed above and name the song it represents. Then get Picture No. 8 in Tomorrow's Tribune.

For the benefit of those who had not yet entered, The Tribune re-printed the first six Pictures in yesterday's Sunday Tribune. If you haven't started, get the re-prints in yesterday's Sunday Tribune and start today.

THE RULES:

- Every weekday for 40 consecutive days, (not including Sundays) the Chicago Daily Tribune will print a cartoon picture representing the name of a popular and well known song or old favorite melody. The public is invited to cut out these cartoons and name the songs the pictures represent.
- The Chicago Tribune will pay \$5,000.00 in cash prizes to the persons sending in the nearest correct names and nearest complete sets of Pictures, as follows: 1st Prize, \$1,000.00; 2nd Prize, \$250.00; 3rd Prize, \$100.00; next 4 Prizes (\$25.00 each) \$100.00; next 100 Prizes (\$10.00 each) \$1,000.00; next 510 Prizes (\$5.00 each) \$2,550.00. A total of 617 Prizes, totaling \$5,000.00.
- This Game is open to everyone, everywhere—men, women, boys and girls—except employees of The Chicago Tribune and their families. It does not matter where you live.
- You pay nothing. Just prove your skill. Accuracy will count. Neatness will count. Song Titles are to be submitted only in complete sets. Hold all pictures until you have the

complete set of 40. Then send them to "Song Titles," The Chicago Tribune, Post Office Box 1539, Chicago, Ill. All entries must be in by midnight 15 days after Picture No. 40 has been printed.

Each entry must be sent in by first class mail—postage prepaid. Entries with insufficient postage will be returned by the Post Office Department. At the end of the contest we want you to tell us the name of your favorite song—the one you like best of all—and why. Contestants may send in as many sets of Song Titles as they wish, but no contestant will be entitled to more than one prize.

You need not purchase the Chicago Daily Tribune to compete. You may copy or trace the cartoon pictures from the originals and use the copies you have made. The Chicago Tribune may be examined at any of its Offices or at Public Libraries free of charge.

The judges will be a committee appointed by The Chicago Tribune. Their decision will be final. In case of ties a duplicate award will be paid to each tying contestant.

"ARE WOMEN PEOPLE?"

Did you ever see a "Woman's Magazine" in a barber shop? No! But you see the women there!

A WOMAN in a barber shop a decade ago would have been looked upon with suspicion. Puritan America had decreed that beauty was largely a cultivation of inner virtues. Feminine faces were as nature, soap and a substantial diet made them, plus a permissible trifle of talcum powder. Rouge and lip stick got the brazen creature hot glances and cold shoulders. The police blotter was the social register for ladies of heightened complexions.

In 1917, women the whole country over, spent but 80 millions to improve on nature. In 1926, only nine years later, they spent *two billions!* Government figures!

The modern craze for beauty is but a spirit released from the bondage of household cares. Once, the home was a factory. Women cooked, canned and sewed. Now they buy. Women labored with scrub-brush and broom, wash-tub

and flat-iron. Now they press a button and have time for beauty and diversion.

In 1907, \$705,000 worth of washing machines, vacuum cleaners and electric irons were sold. In 1927, sales were over 23 millions! Dish washers (mechanical) and ironers (electric) were inventors' dreams in 1907. Today they are realities which help to make drudgery in the home as out of date as ankle-length skirts.

Times have changed. *Women today are people.* They instruct and amuse themselves at the same places men do. *They read the same books and newspapers that men read.* Why, then, shouldn't women read the same magazines?

The answer is: *They do!*

5 KILLED IN RACE TO BEAT TRAIN TO GRADE CROSSING

Granite City, Ill., Feb. 26.—(AP)—

Five persons were killed when the driver of their automobile apparently attempted to beat an Illinois Traction System train to a crossing four miles from here early today. The train struck the automobile squarely, dragging it 1,500 feet.

The dead, all residents of Glen Carbon, Ill., are: Durant Douglas, 35, a coal miner; Mrs. Anna Douglas, 28, his wife; Louis Hubbard, 45, Frank Oettle, 25, and Robert Craig, 45, all coal miners.

The train, a two car special, was en route to St. Louis from Peoria with 45 students of Champaign college, St. Louis county. The train approached the crossing at a speed of about 55 miles per hour.

William H. Clutter, motorman, of Granite City, in a report to traction officials said he observed the automobile when it was 200 feet west of the crossing. He said he sounded the whistle and the automobile slowed down. When it reached a point about 100 feet from the crossing, Clutter said, the automobile seemed to take on speed and ran directly into the path of the train.

The impact of the collision ripped away the pilot of the train and shattered the vestibule glass but Clutter was unhurt. Bodies of the victims were scattered along the railway track.

STREET CAR AND AUTO COLLIDE; 1 KILLED, 1 HURT

Two deaths yesterday in Cook county as a result of automobile accidents raised the 1928 toll to 184.

John Flisak, 45, of 2711 West 24th street was fatally injured when an automobile in which he was riding with Steve Shagad, 46, 2352 South Turner avenue, collided with a street car at 25th street and Spaulding avenue. Shagad, who was seriously injured, was held by the police for questioning. Flisak died at St. Anthony's hospital.

William Dell, 68, of 2717 Wentworth avenue died in the Provident hospital of injuries received on Feb. 16 when his automobile collided with one driven by F. E. Waterman, 235 East 33d street.

Motorcycle Policeman Elmer Reter of Evanston received a possible skull fracture and a broken leg, foot last night when his motorcycle was struck by an automobile driven by Vincent P. Schindler, 1803 Walnut street, Wilmette, at Davis street and Chicago avenue, Evanston.

Struck by a "hit and run" automobile while walking across the street at Kimball and Montrose avenues, Carl Haven, 49, of 1849 North St. Louis avenue was taken to the Montrose avenue hospital suffering from a possible skull fracture.

DANCERS STAGE RIOT AS PRIZES ARE WITHHELD

Several hundred blarney costumed dancers at the Marigold Gardens ballroom staged a riot early yesterday when the advertised prizes for which they had danced their odd dance were not awarded.

The stage had been set for the final judging. Preliminary judgments had been finished and every one waited expectantly for the announcement of the final parade. But when 2 o'clock arrived the orchestra signified the end of the evening by playing "Home, Sweet Home." The crowd broke into an uproar. In the mixup the orchestra and the ballroom employees disappeared. Someone called the Town Hall police, who quelled the disturbance. After taking statements from several contestants the police began a search for a man known as Walter Harmon.

ANGLO-JAPANESE NAVY SOCIABILITY INTRIGUES CHINA

Wonders What's Behind
the Festivities.

BY JOHN POWELL.
(Special Tribune Service.)
HONGKONG, Feb. 26.—Considerable
speculation has been aroused, both in
American and Chinese circles, regard-
ing the announcement from Tokyo
stating that Japanese naval authori-
ties on April 1 will send three first
class battleships, the Nagato, Matsuyama
and Fuso, of the first squadron of the
first battle fleet, with the first torpedo
fleet, consisting of several cruisers
and sixteen destroyers, to Hongkong
for the purpose of paying a visit to the
British naval authorities and also to
call at South China ports.

Another announcement states that
the British are preparing for an elab-
orate concentration of British warcraft
in Hongkong waters for the purpose
of welcoming the Japanese fleet.

The report from Tokyo today says
it is expected many magnificent
festivities will be held, both on land
and sea, by the navies of the two
friendly nations. Japan and Great
Britain, for the purpose of exchanging
greetings.

The British minister, Sir Miles Lam-
ont, who now is visiting Canton, called
on the Chinese general, Li Chi-sun,
controller of Kwangtung province. The
British minister expressed willingness
to assist Gen. Li in promoting the wel-
come of South China.

COP-FOOLED, BUT HE PROVES HE'S ABLE TO TAKE A JOKE—TO JAIL.

May a man be charged with fooling
a policeman? Policeman James Flem-
ing wants to know. Fleming was go-
ing on duty last evening, and as he
entered the Warren avenue station-
house he saw a man sitting on the
steps.

"What are you doing here?" asked
the policeman. The man made no
answer, but swayed drunkenly. So
Fleming grabbed him by one of his
legs—and the leg came off in his hand.
It was wooden.

Whereupon Fleming slung the in-
truder over his shoulder and carried
him to the cell house. He gave his
name as Frank Mark, 46, of 148 South
Campbell avenue.

THREE DAYS MORE AND OUR GREATEST

February FURNITURE Sale

COMES TO A CLOSE—WILL YOU BE ONE OF THE LUCKY ONES TODAY?

We point with pride to the fact this sale seemed of so great impor-
tance that we began it on the 16th day of January. We are glad to
say that since then there has been no let up. When the sale closes it
will prove to have been the most successful furniture event, both in
sales and values, we have ever held. We have exerted ourselves to
make today, Monday, the most enormous day since the Sale opened.

We cannot show one-tenth of the Specials, but we want to impress
upon you that in each aisle and nook and corner of the Furniture
Department there is something for you at a great saving marked
specially for today. Do not wait until this afternoon—the very article
you want may then be sold. Start as soon as you can and come direct
to the Furniture Department. All living room furniture is displayed
on the Eighth floor, everything else on the Ninth.

On large purchases, if you are starting Housekeeping May 1st,
we will hold the goods until then.

Easy payments with a small carrying charge will enable you to
buy whatever you want and to pay for purchase as you use it.

LITTLE ORPHAN ANNIE: Keeping Up Her Courage

Nikolai Orloff Plays Way Into Elmer's Heart

Recital Called One of Best
Ever Given.

BY ELMER DOUGLASS.

The most important radio event yesterday was Nikolai Orloff's piano recital, New York, through W-G-N, 8:15 to 9:15. Quite certainly this was as important a piano recital as has yet been given at this great broadcast series; longer selections were played than ever before attempted in a recital by a world renowned pianist. However, more spectacular recitals than this are of common occurrence. Mr. Orloff is not of the spectacular mold, from a radio standpoint. He is of the elite among pianists; a poet first of all, and his song is sweet and gentle and subtle. That's why he is so eminently qualified to interpret Chopin, of which his program mostly consisted. He plays Chopin with tones flowing from one thought and mood to another. He plays softly and caringly, and always lovely, without ever straining the piano, and apparently with effortlessness on his part; yet in touch he is firm and exact, exact in the sense of tonal and expressional exactitude.

The unusually long works by other composers played were "The Miller and the Brook" (Schubert-Liszt) and "Valse Caprice" (Liszt), and these were played as poetically as his many short Chopin selections. Comparison needs no apology for including at this place the Chopin program by Edward Barry, W-G-N, 1 to 1:30. There was poetry here also, one of the early day artistic treats. Musical moments of very great beauty were those during the New York, 2 to 3 symphony hour, through W-G-N, when Bach's Brandenburg violin concerto in F was played. It closely resembled in tone and construction his well known concerto for two violins.

WEBB had three important programs: the New York 5 to 6 symphony hour, during which Schubert's "Unfinished" symphony was played complete. A very choice concert by the Northwestern university men's glee club, at 8 o'clock, which for tone and phrasing one could say hallmarked. At 9 o'clock a program by the combined St. Peter's Lutheran church choir of Arlington Heights, Ill.

The Waist Line Is Returning Again

victions, here is a French frock proving just how bold some of the new gowns are about coming back. This model is from that gifted French couturier, Nicole Groult, and it shows in connection with a normal waist line a skirt which also displays a disposition to come back home. Frankly longer, in fact, is this simple skirt with a flare that accords any modern irregularity of hem line. Yet its very simplicity makes it striking, especially in view of a smart combination of black satin with touches of white satin. This is one of the many new models that keep time to the scarf dance. But a brand new experiment has been tried with that hoary accessory. Tucked in at one side of the V shaped neck line to form a partial vestee, it is thrown around the shoulders to form a long scarf. The cuffs of the narrow sleeves are also of white satin. The partiality for black and white frocks is still evident. Time and again we find both black crepes and black satins set off with touches of the same material in white, and, though this is a sartorial alliance that spells defiance of the cleaning bill, there are many who undertake that responsibility in the most cheerful spirit. (Copyright: 1928; By The Chicago Tribune.)

The Right Rev. J.T. Noonan, Des Moines Pastor, Dies

Des Moines, Ia., Feb. 26.—(P)—The Rt. Rev. John T. Noonan, vicar general of the Des Moines diocese of the Catholic church and pastor of St. Augustin's church, died here today from complications resulting from an attack of influenza several weeks ago. Funeral services will be held Wednesday.

SOME WOMEN ALWAYS ATTRACT

You want to be beautiful. You want the tireless energy, fresh complexion and pep of youth. Then let Dr. Edwards' Olive Tablets keep your system free from the poisons caused by clogged bowels and torpid liver. For 20 years, men and women suffering from stomach troubles, pimples, listlessness and headaches have taken Dr. Edwards' Olive Tablets, a successful substitute for calomel, a compound of vegetable ingredients, mixed with olive oil, known by their olive color. They act easily upon the bowels without gripping. They cleanse the system and tone up the liver. Keep youth and its many gifts. Take Dr. Edwards' Olive Tablets nightly. How much better you will feel—and look. 15c, 30c, 60c. All druggists. Dr. Edwards' OLIVE TABLETS

Lean Roast Pork.

The low priced loins of pork have usually been trimmed of almost every possible piece of fat. There is not enough on them to cut off if you happen to like to start your roast by pouring freshly tried hot fat over it. But for this we really like freshly tried out salt pork fat about the best of all, yet the fresh will do, and perhaps lends itself to herb seasonings better than does the salt. This, however, is a matter so dependent on different tastes that it is hard to settle. Now let us say we have in hand a lean two pounds of pork loin, for a small family roast or for cold pork service, with hardly a sliver of fat on it, and that no salt pork is in the house. What shall we do? Let us suppose we have it in mind also to vary the flavor of our pork from the ordinary, which is almost equal in many cases to getting a new sort of meat.

First, clean up the roast and put it in a small long pan on a stand ready for the oven. Now mix a French salad dressing by rubbing a bowl with the cut end of a clove of garlic, putting in a half teaspoon of salt and some freshly grated white pepper, add a tablespoon of vinegar and stir until the salt is dissolved, then add three tablespoons of the best olive oil, whip to a cream and heat hot, but not to a smoking temperature, stirring it all the time. When hot pour it over the pork, hitting every spot, if possible. Now if you have a deep broiling

oven, which you have been heating slowly, open it and put the pork in and leave door open. Otherwise a 350 degree oven should be used, and some water added to the pan at once. Since there is no gas under the broiling oven you can easily roast in it without burning fat in the pan. Give the roast a good start with fat basting in the broiling oven, then add one cup of boiling water and one tablespoon of sage leaves and finish in the oven. If the water steams away quickly the oven is unnecessarily hot. Exploding fat is neither good for the oven house, nor for the roast. Since pork must be thoroughly cooked, you may even finish this at a lower temperature, and continue cooking two hours.

When cold this can be sliced as thin as paper, or thick if you like.

Gropes Through Blazing House Hunting for Girl

Chief W. W. Walker of the Summit fire department, early yesterday plunged into a burning apartment building at Archer avenue and 55th street, seeking Miss Stella Vopola, 20, who was reported to be in the structure. He went through every room but did not find the girl and she was later reported to have been visiting friends during the blaze.

KILLED BY GAS IN HER HOME.
Mrs. Ida Schults, 59, of 2823 East avenue, was found asphyxiated by gas in the kitchen of her home last night.

"Good morning, Madam.
what do you like best
about 'Selected' Milk?"

Invariably the Mother's
answer to this question is:

"We all like it because it tastes so
sweet. We enjoy drinking it and I
have noticed that it certainly agrees
with my children."

Between now and
March the first is a
good time to change
to this better drink-
ing milk.

Talk to the Borden
milkman in your

EMBARRASSING MOMENTS

The Tribune will pay \$1.00 for every letter published on "The Most Embarrassing Moment of My Life." Address: Embarrassing Moments, Chicago Tribune. Write on one side of the paper. No manuscript returned.

Slightly Ironical.

I was teaching English in high school. I was always fussing about clear, easily read writing. I even said I would give a higher mark for a well-written theme, or one that was type-written.

One day I noticed the whole class piling over a paper I had returned to a girl in the class. I asked to see the paper, and also wanted to know what the trouble was. The girl who had written it reluctantly brought it up to me. I demanded to know why she was handing her paper all over the class.

"Well," she replied, "I couldn't make out your comment on my theme, and I wanted to see if any one else could."

"Let me see it," I said icily. She handed me the paper. On it I had scrawled—yes, scrawled, "Absolutely illegible—rewrite."

Bright Sayings
of the Children

The Tribune will pay \$5 for each child's saying printed. The saying must be original, and not have been printed in any magazine or newspaper. It is not possible to acknowledge or return unsolicited contributions. Write on one side of the paper. Address bright sayings to Auntie Ben, The Tribune, Chicago.

"In about a half hour after brother had been put to bed for his afternoon nap, he called to me, 'Can I get up now, mother?'"

"Why, no," I said to him, "you haven't been asleep yet."

"Well," he complained, "I don't want to sleep—'n' I'm tired 'lyin' 'round all day dreamin' awake."

W. S. M.

Stanley, aged 4, had a new baby brother, and on meeting the owner of the building he said, "Mrs. C. if you see a strange boy playing in the yard don't chase him, 'cause he is my brother."

Batteries Needed.

"My husband has been out of work for five months, and although I am employed, we are barely able to get along. We have a radio we bought before things became so bad, but the batteries have been worn for months and we are not able to replace them. My small daughter, 4, misses the music so much. I wonder if you know of some one who has old, but good B batteries we might have."

"Mrs. I. H.,

If you've recently invested in eliminators for your receiving set you may have some slightly used B batteries lying about which could be put to work again. Here's a family who would enjoy having them.

The Chicago Theater always brings entertainment alive with enthusiasm and fire, and in this week's program there is a remarkable flare of young ideas.

Norma Shearer is at her smartest and sweetest as a traveling saleslady in a novel young-love romance, "The Latest From Paris."

The stage production, too, is alight with freshness and young innovations: "Treasure Ships" does new things, with colorful scenery; new wonders in blending music, comedy and dancing.

The elaborate perfection of all musical, stage and screen numbers is a reminder that the Chicago Theater presents everything with incomparable sparkle and zest. Depend Every Week On

Seventh Floor, North, State.

An Unrestricted Choice in Practically Every Type of Chair—

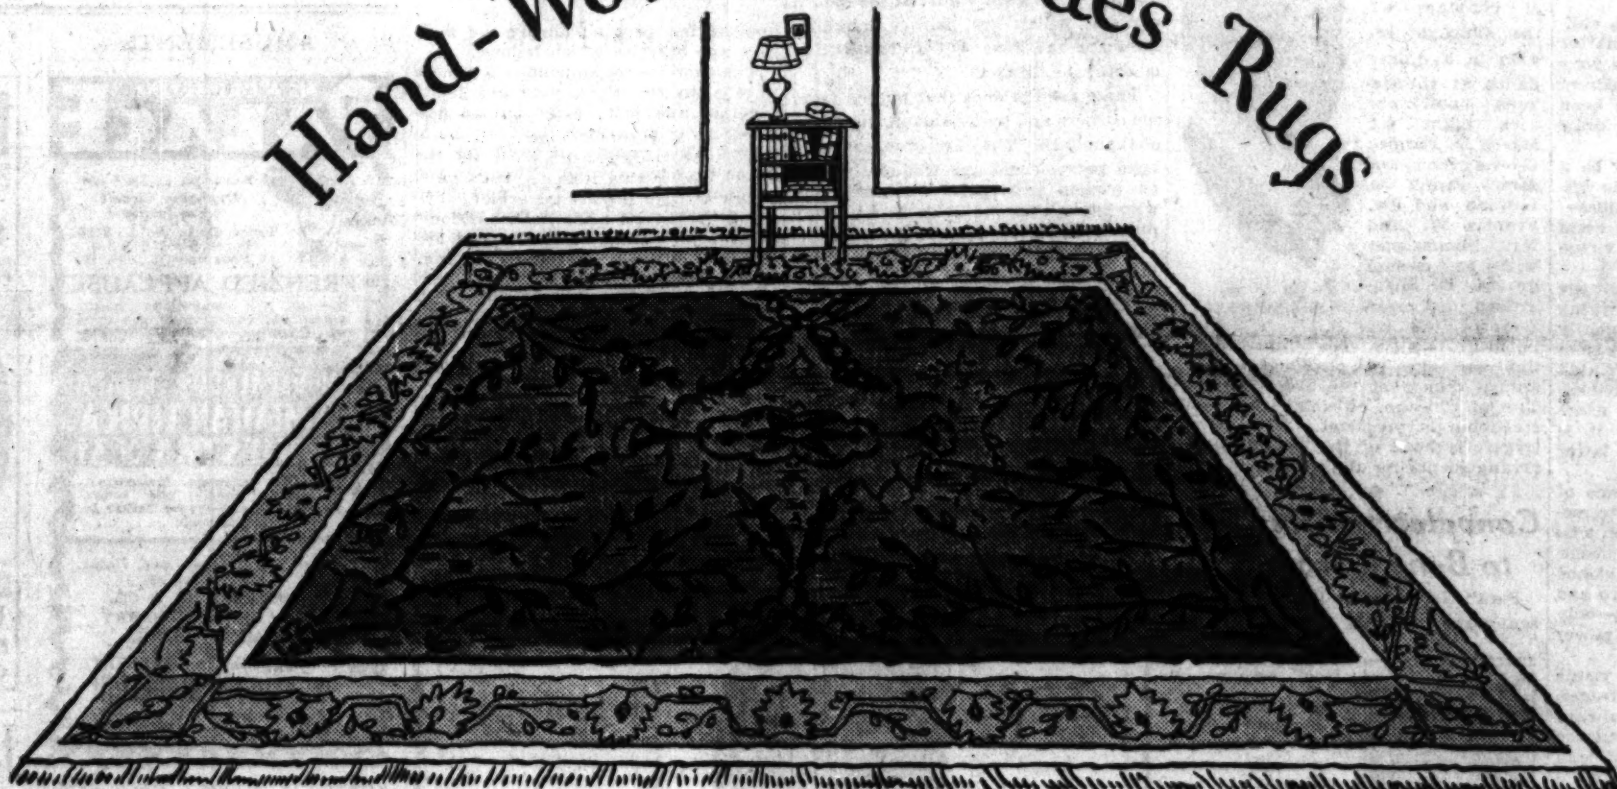

The choice here is so wide and yet so individual (as most of these chairs are "one-of-a-kind") that surely any taste and need may be met without the least sacrifice of quality, for every chair in this sale is included in our regular stock.

Reduced Prices Vary According to the Chair from \$23.50 to \$235

Sixth Floor, Wabash.

There are, for example, chairs from England built on great comfortable lines, and richly upholstered. Chairs in the Louis XV. period carved by hand and upholstered in Aubusson-pattern tapestry. There are any number of unusual little pull-up chairs.

Hand-Woven Ghiordes Rugs

Beauty and Quality in Floor Coverings at February Sale Prices

HARMONY in interiors is most easily obtainable and infinitely successful when the choice for floor covering is a beautiful Oriental rug. The deep pile is essentially luxurious. Old blues and soft rose grounds seemingly have a mystic magic that serves as foil to almost any color scheme one desires. And added to its esthetic appeal is the knowledge of permanent vogue, and quality that gives more than usual interest to February Sale Prices.

The 6x9-Foot Size, \$57.50; 9x12-Foot, \$115

Ninth Floor, North, State.

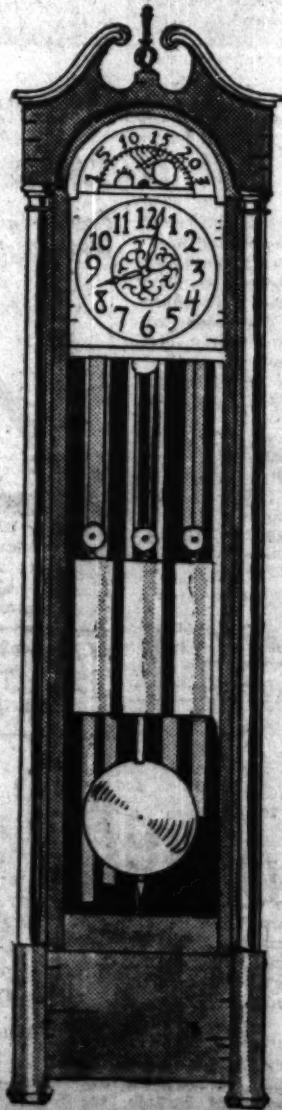

Oil Paintings Greatly Reduced.

PAINTINGS representative of some of Europe's most prominent painters in oils. A variety of subjects handled with fine understanding. These paintings are unframed and vary from

\$10 to \$50

During this month framing is done at a substantially lowered price, and this makes it possible to have one of these framed appropriately at a great saving.

Seventh Floor, South, State.

Sale of Hall Clocks Exceptional Values.

EVERY hall clock in our stock has been reduced for clearance. Each is remarkably fine in cabinet work and has real worth in design, simulating the old type clocks with perfection.

\$60 to \$340

Prices vary according to the clock. They are equipped with very fine movements and many have effective tonal chimes, particularly attractive features of this type of clock.

Seventh Floor, North, State.

Housewares-Important In the Modern Kitchen

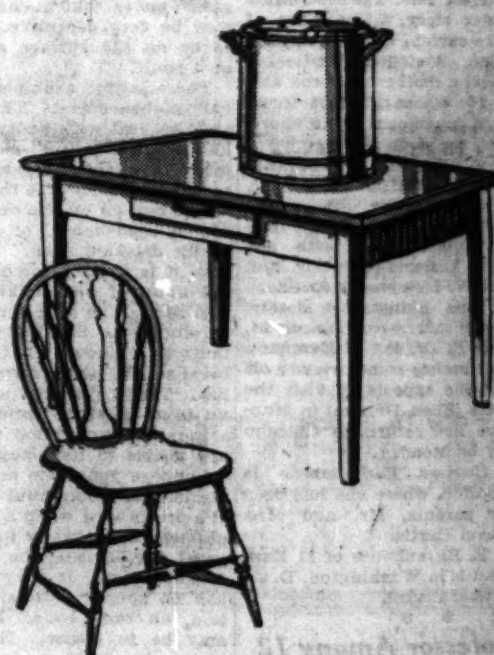

WHITE enamel table, \$5.50—When carefully placed is a most helpful step saver. With divided cutlery drawer.

A kitchen chair enameled in white with touches of blue, \$3.25.

The New York Times

New York, Feb. 26.—[Special.]—Glancing back at the incidents of the new nearly completed month, many will be impressed with the general recognition of trade reaction.

Considering that railway traffic, steel production, and company earnings in both industries were reflecting large decreases of trade activity, it is not surprising that the stock market's persistent advance accounted for it largely.

Recall Prophetic Mistake

Recollection that warnings of trade reaction uttered from high official places at the end of 1925 had not come true that year was a further influence. It must also be remembered that even official estimates of unemployment, which were published in the early months of 1926, had been revised downward, and the decline on the stock exchange.

It is true the stock market appeared to move only in response to the "gesture" of the Federal Reserve, but nevertheless moved downward, and a very considerable part of the community still shapes its future of trade by the course of stocks.

Wall Street, which never doubts that by halves, has reverted from the belief that trade reaction was impossible (and therefore nonexistent) to talk of a much more serious industrial situation.

Knowledge of the future, however, is not so easily obtained as even belated knowledge of the past. It has been an anomaly in a very anomalous situation that a community which would not recognize an unfavorable trend of trade when a 20 per cent decrease from a year ago in monthly steel production was giving the plainest warning can begin to be discouraged only when a 10 per cent increase is reported.

Even so, however, the question occasionally is raised again why we should experience trade reaction when there has been no industrial speculation, no bidding up of prices, no over production, and therefore no forced sales by producers worried about their inventories.

It is reasonably enough may be answered that, whatever Wall Street's view may be, it is not primarily the producer whose attitude causes upward and downward vicissitudes of trade but the consumer.

Consumer Is Real Mystery

Information is easy to get about the producer's action and the circumstances back of it, but information regarding the consumer is limited to the fact that he bought so many goods in the aggregate yesterday and is buying so many more or less today. Statistics of overproduction are readily accessible; there are no statistics of "overconsumption."

Yet nothing is recognized more unhesitatingly than the fact that consumer purchases never are the same from season to season. The whole history of trade is made up of alternating periods of lavish buying and retrenchment and the change from the one attitude to the other has often seemed on the surface merely as a change of mood.

Undoubtedly it was something more. The motive vaguely described as "confidence" has notoriously governed spending propensities of retail purchasers as well as business plans of merchants and manufacturers; indeed, it has usually happened that the producer began to take to sell, not because of personal apathy, but because he feared overproduction, but because he feared overproduction of purchases by his customers.

In these days, when new contrivances in retail trade have seemed to open up the possibilities of excessive use of credit which used to be considered the hardy only of producers, a new but equally obscure influence on the conduct of the consuming community has been created.

Keith-Albee-Orpheum Buys Into F. B. O. Corp.

New York, Feb. 26.—(AP)—Acquisition of a substantial interest in the F. B. O. Pictures corporation by officials of the Keith-Albee-Orpheum was announced today. Under the new arrangement the board of directors of F. B. O. will embrace the combined interests of four large organizations: Joseph P. Kennedy and associates, the Keith-Albee-Orpheum group, the Radio Corporation of America, and the General Electric company. Nearly 700 theaters in the United States and Canada are brought together through ownership, or control, by the transaction.

Decrease Is Reported in Amer. Smelting Net

New York, Feb. 26.—(AP)—American Smelting and Refining company reported net income of \$17,677,553 for 1927, compared with \$17,760,721 in 1926, a record year. Earnings on the common stock were equal to \$13.54 a share, after preferred dividends, which were \$2.74 a share less than the year before, but 47 cents a share more than in 1925. The report showed surplus income of \$7,697,523 after dividends, and cash on hand at the close of the year amounting to \$15,142,817, a gain of \$4,618,015 over the previous year.

6% Refunding External Sinking Fund Gold Bonds
To be dated March 1, 1928
To mature March 1, 1951

CUMULATIVE SINKING FUND CALCULATED SUFFICIENT TO REDEEM ENTIRE ISSUE BY MATURITY, OPERATING SEMI-ANNUALLY BY CALL AT PAR

Over \$17,500,000 of these Bonds have been placed in Canada, Europe and South America, including a public offering in Holland by Pierson & Co., Nederlandse Handel-Maatschappij, Mendelssohn & Co., Amsterdam, Proehl & Gutmann and Vermeer & Co.

HALLGARTEN & CO. and KISSEL, KINNICUTT & CO., Fiscal Agents.

The following information (transmitted by cable) is furnished by Dr. Francisco Ratto, Minister of Finance of the Province of Buenos Aires:

PROVINCE OF BUENOS AIRES: The Province of Buenos Aires is the largest and most important Province of the Argentine Republic. It has an area of 117,700 square miles, greater than the combined areas of the New England States and the State of New York, and a population in excess of 3,000,000, or about one-fourth of the entire population of the Argentine. The Province ranks first in population, in agriculture, stock raising and industrial development, and in railroad mileage. A separate Federal District (analogous to the District of Columbia, U. S. A.) containing the City of Buenos Aires, capital of the Argentine Republic, adjoins the Province, its population of 2,000,000 providing a permanent and important market for food and other products of the Province.

PURPOSE OF ISSUE: The proceeds of this issue of Bonds will be applied to the total redemption of the following outstanding issues: External Ten Year 7% Secured Sinking Fund Gold Notes, dated January 1, 1926; 7% External Sinking Fund Gold Bonds, Consolidation Loan of 1926, dated December 1, 1926; and 7% External Sinking Fund Gold Bonds, Consolidation Loan of 1926, dated May 1, 1927. Said issues will be called for redemption on their next interest dates. This refunding operation will result in an immediate and appreciable saving in service charges on the Provincial funded debt.

SECURITY: These Bonds are the direct obligation of the Province of Buenos Aires, which pledges its full faith and credit for the due and punctual payment of principal, interest and sinking fund.

In addition, upon the redemption of the aforesaid three loans, these bonds will be specifically secured by a charge and lien on the Real Estate and Inheritance Taxes as well as the Renta Censal Portions of the Commerce and Industry Tax and of the License Tax on alcoholic beverages, tobacco and playing cards, subject only to prior charges amounting annually to not more than 12,365,000 paper pesos (\$5,200,000).

After deducting these annual prior charges from the combined calculated revenues from said taxes for the fiscal year ending February 29, 1928, the remainder is equivalent to more than 7 1/2 times the annual service charges on the present issue. During the three fiscal years ended February 28, 1927, revenues from said taxes available for the annual service of these Bonds averaged more than 5 1/2 times service requirements. If for any fiscal year the annual revenues from said taxes available for the service of these Bonds should be less than five times the annual service charges, the Province covenants that at the request of the Fiscal Agents it will pledge receipts from other taxes in an amount sufficient to offset such deficiency.

FINANCES: Revenues of the Province have increased greatly in recent years, having risen from \$30,950,000 in 1920 to \$43,069,000 for the fiscal year ended February 28, 1927, and from \$45,458,000 during the current fiscal year to February 10, 1928. Although aggregate ordinary expenditures for the five years ended February 28, 1927, exceeded ordinary revenues, the average annual deficit for such years was less than \$2,600,000.

The total funded debt of the Province upon completion of this financing will not exceed \$256,500,000 or less than \$86 per capita and the total wealth of the Province is estimated at over \$6,000,000,000.

All conversions of Argentine pesos into United States dollars have been made at par of exchange. Argentine currency is on an unrestricted gold basis and the peso is now quoted slightly above dollar parity.

Price 96 1/2 and interest, to yield over 6 1/4 to maturity

The above named 7% Bonds and/or Notes, to be called for redemption, will be accepted in payment for the new Bonds on a 4 1/2% discount basis, computed on the respective redemption prices, provided notice of the amount of such Bonds and/or Notes to be tendered in payment is received by Hallgarten & Co., 44 Pine Street, New York City, not less than five days prior to the date fixed for delivery of and payment for the new Bonds.

THIS IS SEASON OF CROP SCARES IN WHEAT MARKS

BY CHARLES MICHAELS.

The crop scare period in wheat is at hand, and already the outlook for the new grain in the central west is encouraging to have considerable effect on the market.

Private reports received during last week from Illinois, Indiana, Ohio, Missouri, Tennessee, and Kentucky indicate that there will be a heavy reduction in acreage from that needed last fall.

While it still is early to determine accurately the loss, in some sections it is reported very little wheat survived the winter. To some extent this was due to the unfavorable weather conditions prevailing last fall, and also to the lack of snow covering during the winter.

Expect Higher Prices.

From cables from parts of Russia, Hungary, Rumania, and Albania, indicating a general scarcity of foodstuffs tends to confirm the belief held by many traders that a number of foreign countries were over optimistic in estimating the 1927 crop, and the poor quality must also be considered.

Taken as a whole the outlook for the new European wheat crop is somewhat better than the average due to unfavorable weather and a crop developing in the United States a higher level of values is anticipated by many in the trade.

March farm reserve figures will be given to the trade on Thursday, and expectations are that they will show somewhat under the percentage of the crop held at this season last year.

March wheat closed Saturday at \$1.25, to \$1.35; May at \$1.35, to \$1.35, and July at \$1.15, to \$1.15, showing net gains of 1927 to 1928. Range of prices follows:
